## COLLECTORS' CHOICE

Discover beautifully vivid modern works at Masterpiece this year

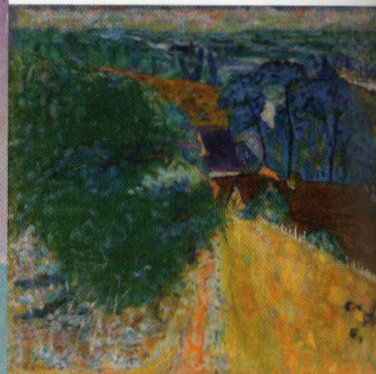

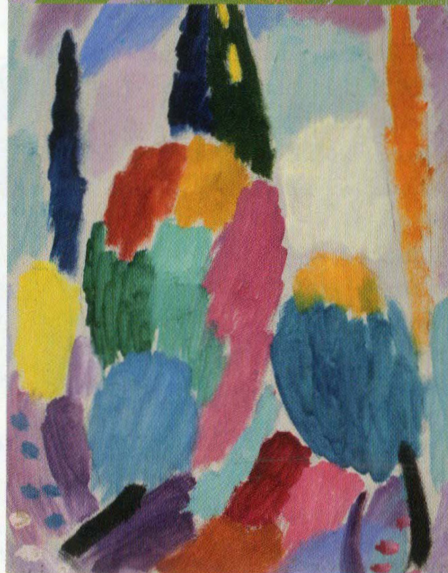

By CATRIONA GRAY

This June, the Parisian gallerist H el ene Bailly will be carefully packing up an assortment of fine 20th-century paintings in readiness for Masterpiece London, which brings together the world's best art, antiques and design in the hallowed grounds of the Royal Hospital Chelsea. Her stand will display a colourful array of works for sale by Pierre Bonnard, Joan Mir o, Sonia Delaunay and Pablo Picasso. Bailly is just one of the exhibitors who make the fair such a firm fixture on the art world's calendar. Highlights from other stands include compositions by Bridget Riley and gloriously vibrant floral screen prints by Andy Warhol (who began his career as an illustrator at *Bazaar*) from the Sims Reed Gallery. □

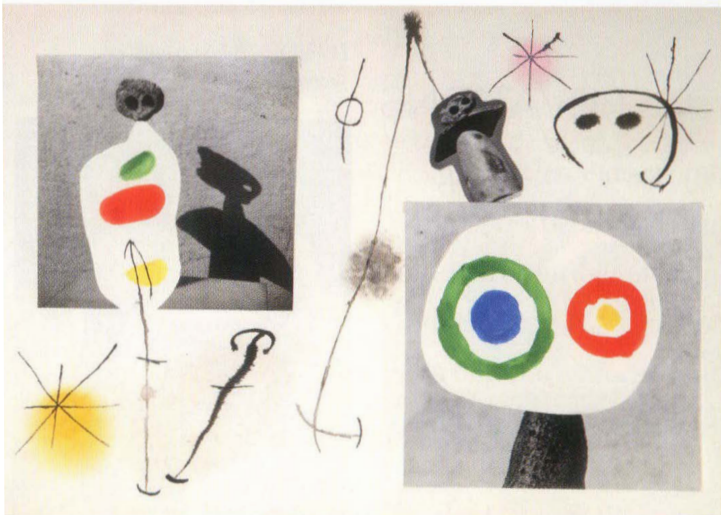

*Masterpiece London 2017* ([www.masterpiecefair.com](http://www.masterpiecefair.com)) is on from 29 June to 5 July (preview 28 June).
